The public should take notice that no other company offers a statement of its affairs at all corresponding to the above. The figures are based on the official findings of the Insurance Department of the State of New York, which recently made the severest examination of the affairs of this Company ever known in the history of life insurance. A policy in this Company represents not only the generally accepted responsibility of legitimate life insurance, but the public pledge of the great State of New York that the figures represent actual facts. Correspondence solicited both from those who would buy and those who would sell life insurance.

This ware is as pure and wholesome as the choicest china, and more durable than the metals from which similar articles are made, while *it is superior even to the best plated ware in keeping Tea and Coffee free from all taint of metallic flavor or discoloration.* It is the only *White Porcelain-lined Ware* ever made that will not craze, crackle or discolor from constant use as a Tea or Coffee Pot. We have never had one returned because the glaze was off from use, or changed in color, nor because tea or coffee changed in color or flavor; and it is the only serviceable pot ever made that will stand this test.

# PREFACE.

The BIDDEFORD AND SACO DIRECTORY for the year 1891-92 being No. 11 of the regular series, is herewith presented to our patrons and the public in general. We hope those who are disposed to be critical of its defects and imperfections will bear in mind the fact that our canvassers are dependent upon the inhabitants of a city or town for any information they may obtain, and that desired facts are often witheld, whereas, if each one would do his part, the book would soon become a model one.

A new feature has been introduced in this edition, which we hope will meet with general approval. It is that of printing the surname once only (except in the case of advertisers), as is now the custom with publishers of the best directories.

In conclusion, we extend our hearty thanks to all who have aided us in the preparation of the present volume, and append the following synopsis:—

| | Biddeford. | Saco. |

See that your letters are sealed and stamped.

Do not abbreviate the address. Always use street address or box number when convenient.

"Visitors" or "transients" should have mail addressed "in care of," etc.

Place your address on upper left hand corner of envelope, and it will be returned if undelivered.

Place your stamp in upper right hand corner.

Nothing can be attached or pasted on postal card, except at letter rates.

Postmasters are permitted to read postal cards to prohibit the mailing of obscene literature.

Second, third and fourth class matter must not be sealed against inspection.

There is no limit of weight to first or second class matter or single books; all other matter is limited to four pounds.

Liquids can be mailed only in metal or wooden boxes.

Persons sending postal cards and who write upon the address side of them "in haste," or other words unconnected with their delivery, subject them to letter postage, and they are held as unmailable.

---

Pepperell Park is a tract of land of a number of acres, situated on the easteriy side of the village, and was granted to the town, in 1752, by Sir William Pepperell. The donation of a part consisted of four acres "for building a meeting house, for a burying place, and for setting up a school house, and for no other use or end whatever." A still larger grant was made of land adjoining, by the same granter, "for a training field," etc. The Unitarian church, now occupied by Rev. J. Lewis Marsh's society, is situated on this grant.

**With Adjustable Pump for Transferring the Oil from Barrel to Tank in Six minutes.**

**Adapted for Kerosene, Machine or Other Oil.**

Please remember, this Tank can stand close to wall when in use without interfering with the opening and closing of cover.

Made of Galvanized Iron, protected by Wood Bottom on the Outside. Handsomely Painted and Ornamented.

Entire height of Sixty-gallon when open, 47 inches; diameter, 25½ in.; Thirty-gallon when open, 38 in.; diameter, 20 in.

[Patented June 13 and Oct. 17, 1882.]

## The "Hub" Metallic Jacket Cans

FOR THE DRUG AND OIL TRADE.

Are especially recommended by steamboat, railroad and insurance companies, as being the most suitable for the purposes to which they are adapted, from the fact that the *Metallic Jacket will not soak oil*, and is therefore less liable to accidents by fire.

A space is left in the centre of the Jackets for the purpose of stencilling your business and address when desired.
